

Endermologie® Treatment Informed Consent

Endermologie® is an effective treatment option for people who want to reactive the cells in their skin that are responsible for the youthful appearance. Endermologie® is a treatment that involves using controlled suction and adjustable rollers in order to suck and knead the target area. It is a non-surgical and non-invasive treatment. The number of treatments each person needs differ and are determined by the individuals needs and goals. Clients must wear a special Endermologie® suite, which they can purchase at Valeriya Life.

Potential Benefits of Endermologie

Endermologie® treatments have potential benefits that are subject to, but not limited to, the following:

- Reduce stress through relaxation
- Reduce cellulite by targeting fat and stimulating fat metabolism
- Detoxify through improvement of lymphatic circulation
- Mobilize fluids, remove toxic waste from the body
- Tone the skin and stimulate the cells that produce collagen, elastin, and hyaluronic acid
- Relieve minor muscle aches and spasms and delayed onset muscle soreness by increasing local blood circulation
- Promote healthier glowing skin
- Reduce the appearance of wrinkles, scars, and tighten sagging skin.

Potential Risks and Complications of Endermologie

Risks and complications with Endermologie treatments should be discussed with you by the provider to ensure you fully understand the alternatives, risks, and average outcomes of the treatment. Although good results are expected, there is no guarantee or warranty, expressed or implied, as to the results that may be obtained. The risks and complications are subjected to, but not limited to, the following:

- Urine discoloration and foul odor: This is due to the treatment removing toxins from your body
- Bruising: This condition usually has only cosmetic effect, which usually disappears in 5-7 days.
