WHAT IS 3D AREOLA?

3D Areola tattooing is a procedure that restores the size, coloring, and contour of an individual's areola & nipple after breast surgery.

Anyone who has undergone breast surgery, mastectomies, breast implant removal or who may have irregular, fading or asymmetric areolas and scars, these procedures are nothing short of a miracle!

regain confidence you deserve!

WHAT ARE THE RISKS?

3D AREOLA tattooing at Valeriya Life is attended to with the utmost attention to sterility and careful technique. We are certified and licensed establishment in Omaha, NE for performing aesthetic tattoo.

Mild swelling or a sensation of burning in the tattoo area can occur with MRI imaging but this happens rarely and does not last long.

INDICATIONS

- LOST AREOLA & NIPPLE
- PERI-AREOLA SCARS
- ASYMMETRIC AREOLAS
- FADED AREOLAS
- SMALL AREOLAS

“ A SMALL CHANGE MADE A BIG WORLD! ”

When I came to Valeriya Life for 3D Areola procedure, I was worried about the outcome. Will my areola and nipple look too unnatural? But Valeriya spent time working with me to get exactly what I wanted. I have never been happier with my areolas and nipples!
